THE ZOOLOGICAL RECORD.

THE object of the ZOOLOGICAL RECORD is to give, by means of an annual Volume, complete lists of the Works and Publications relating to Zoology in all its branches that have appeared during the year preceding the issue of the Volume, together with a Subject and Systematic Index.

This volume of the "Zoological Record" can be obtained from the Society at the price of 60s. per volume.

The Society is unable to supply complete sets of the "Record" now, but can supply *separate* volumes on the following terms:—

Vols. 1 to 42 (except volumes 4, 6, 33, 37 and 38, which are out of print) at 10s. each.
